Ertrinken

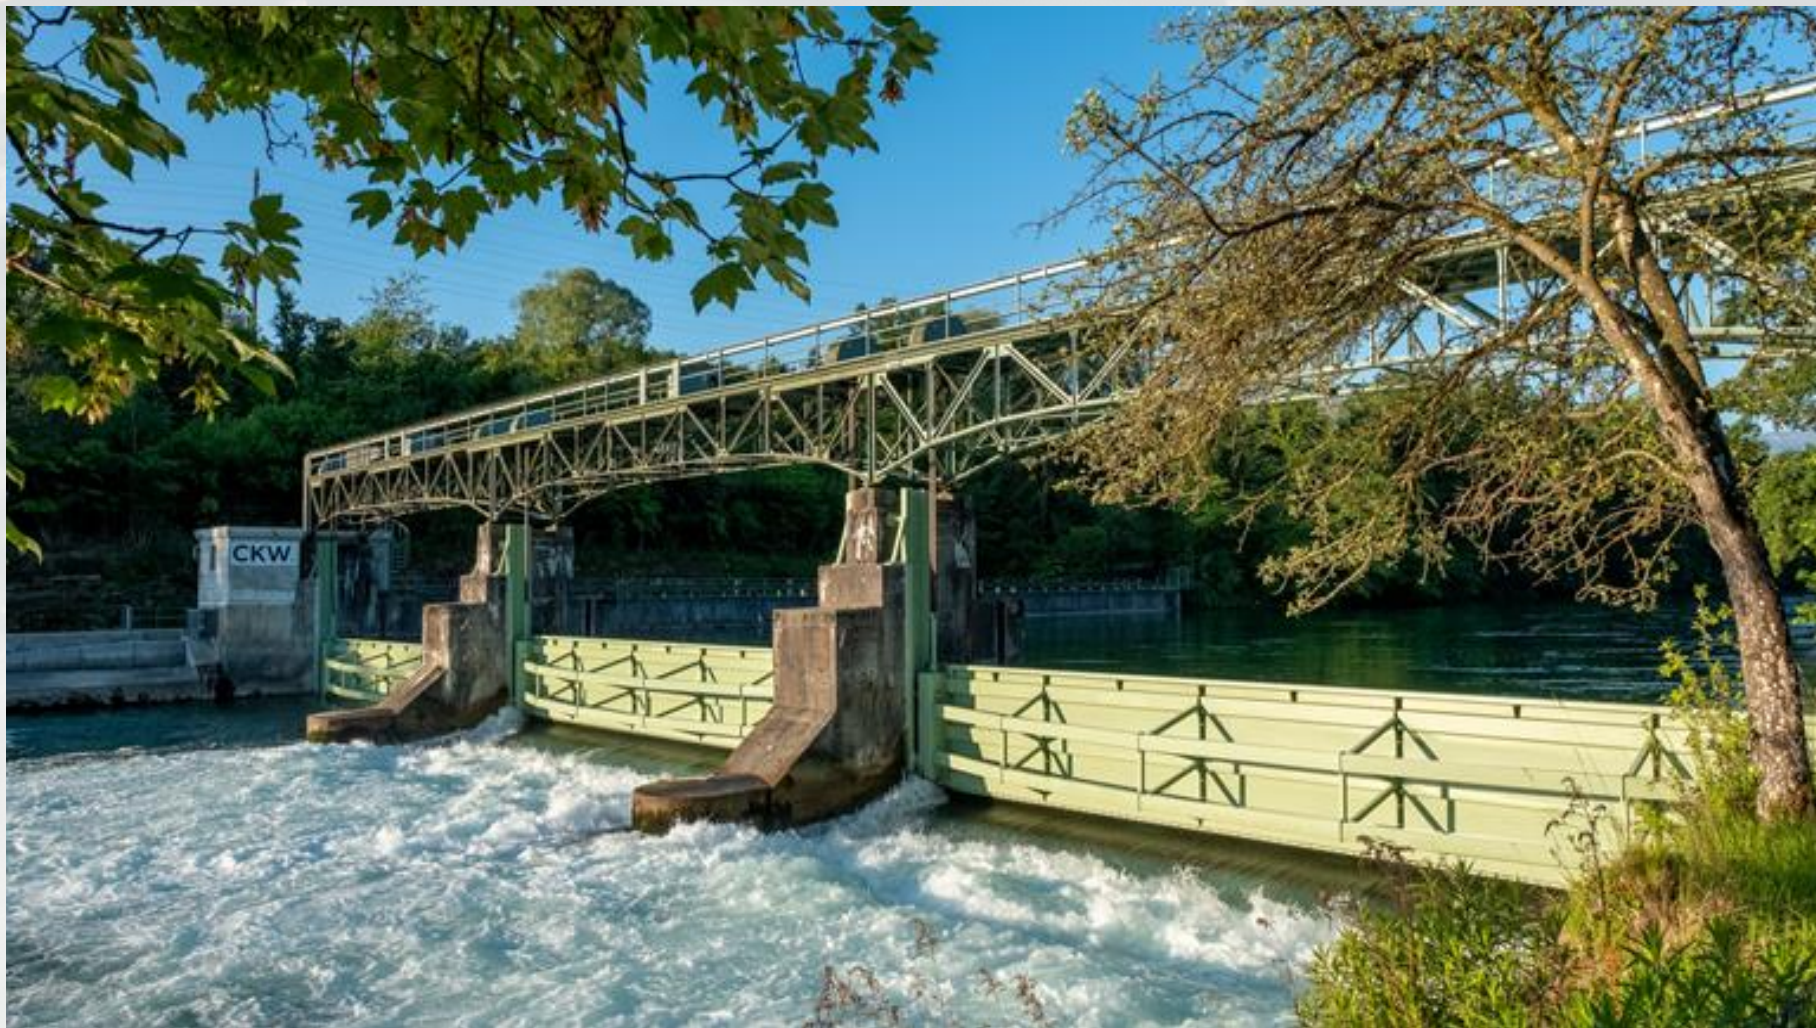

Was man als FirstResponder und
Betriebssanitäter wissen sollte.

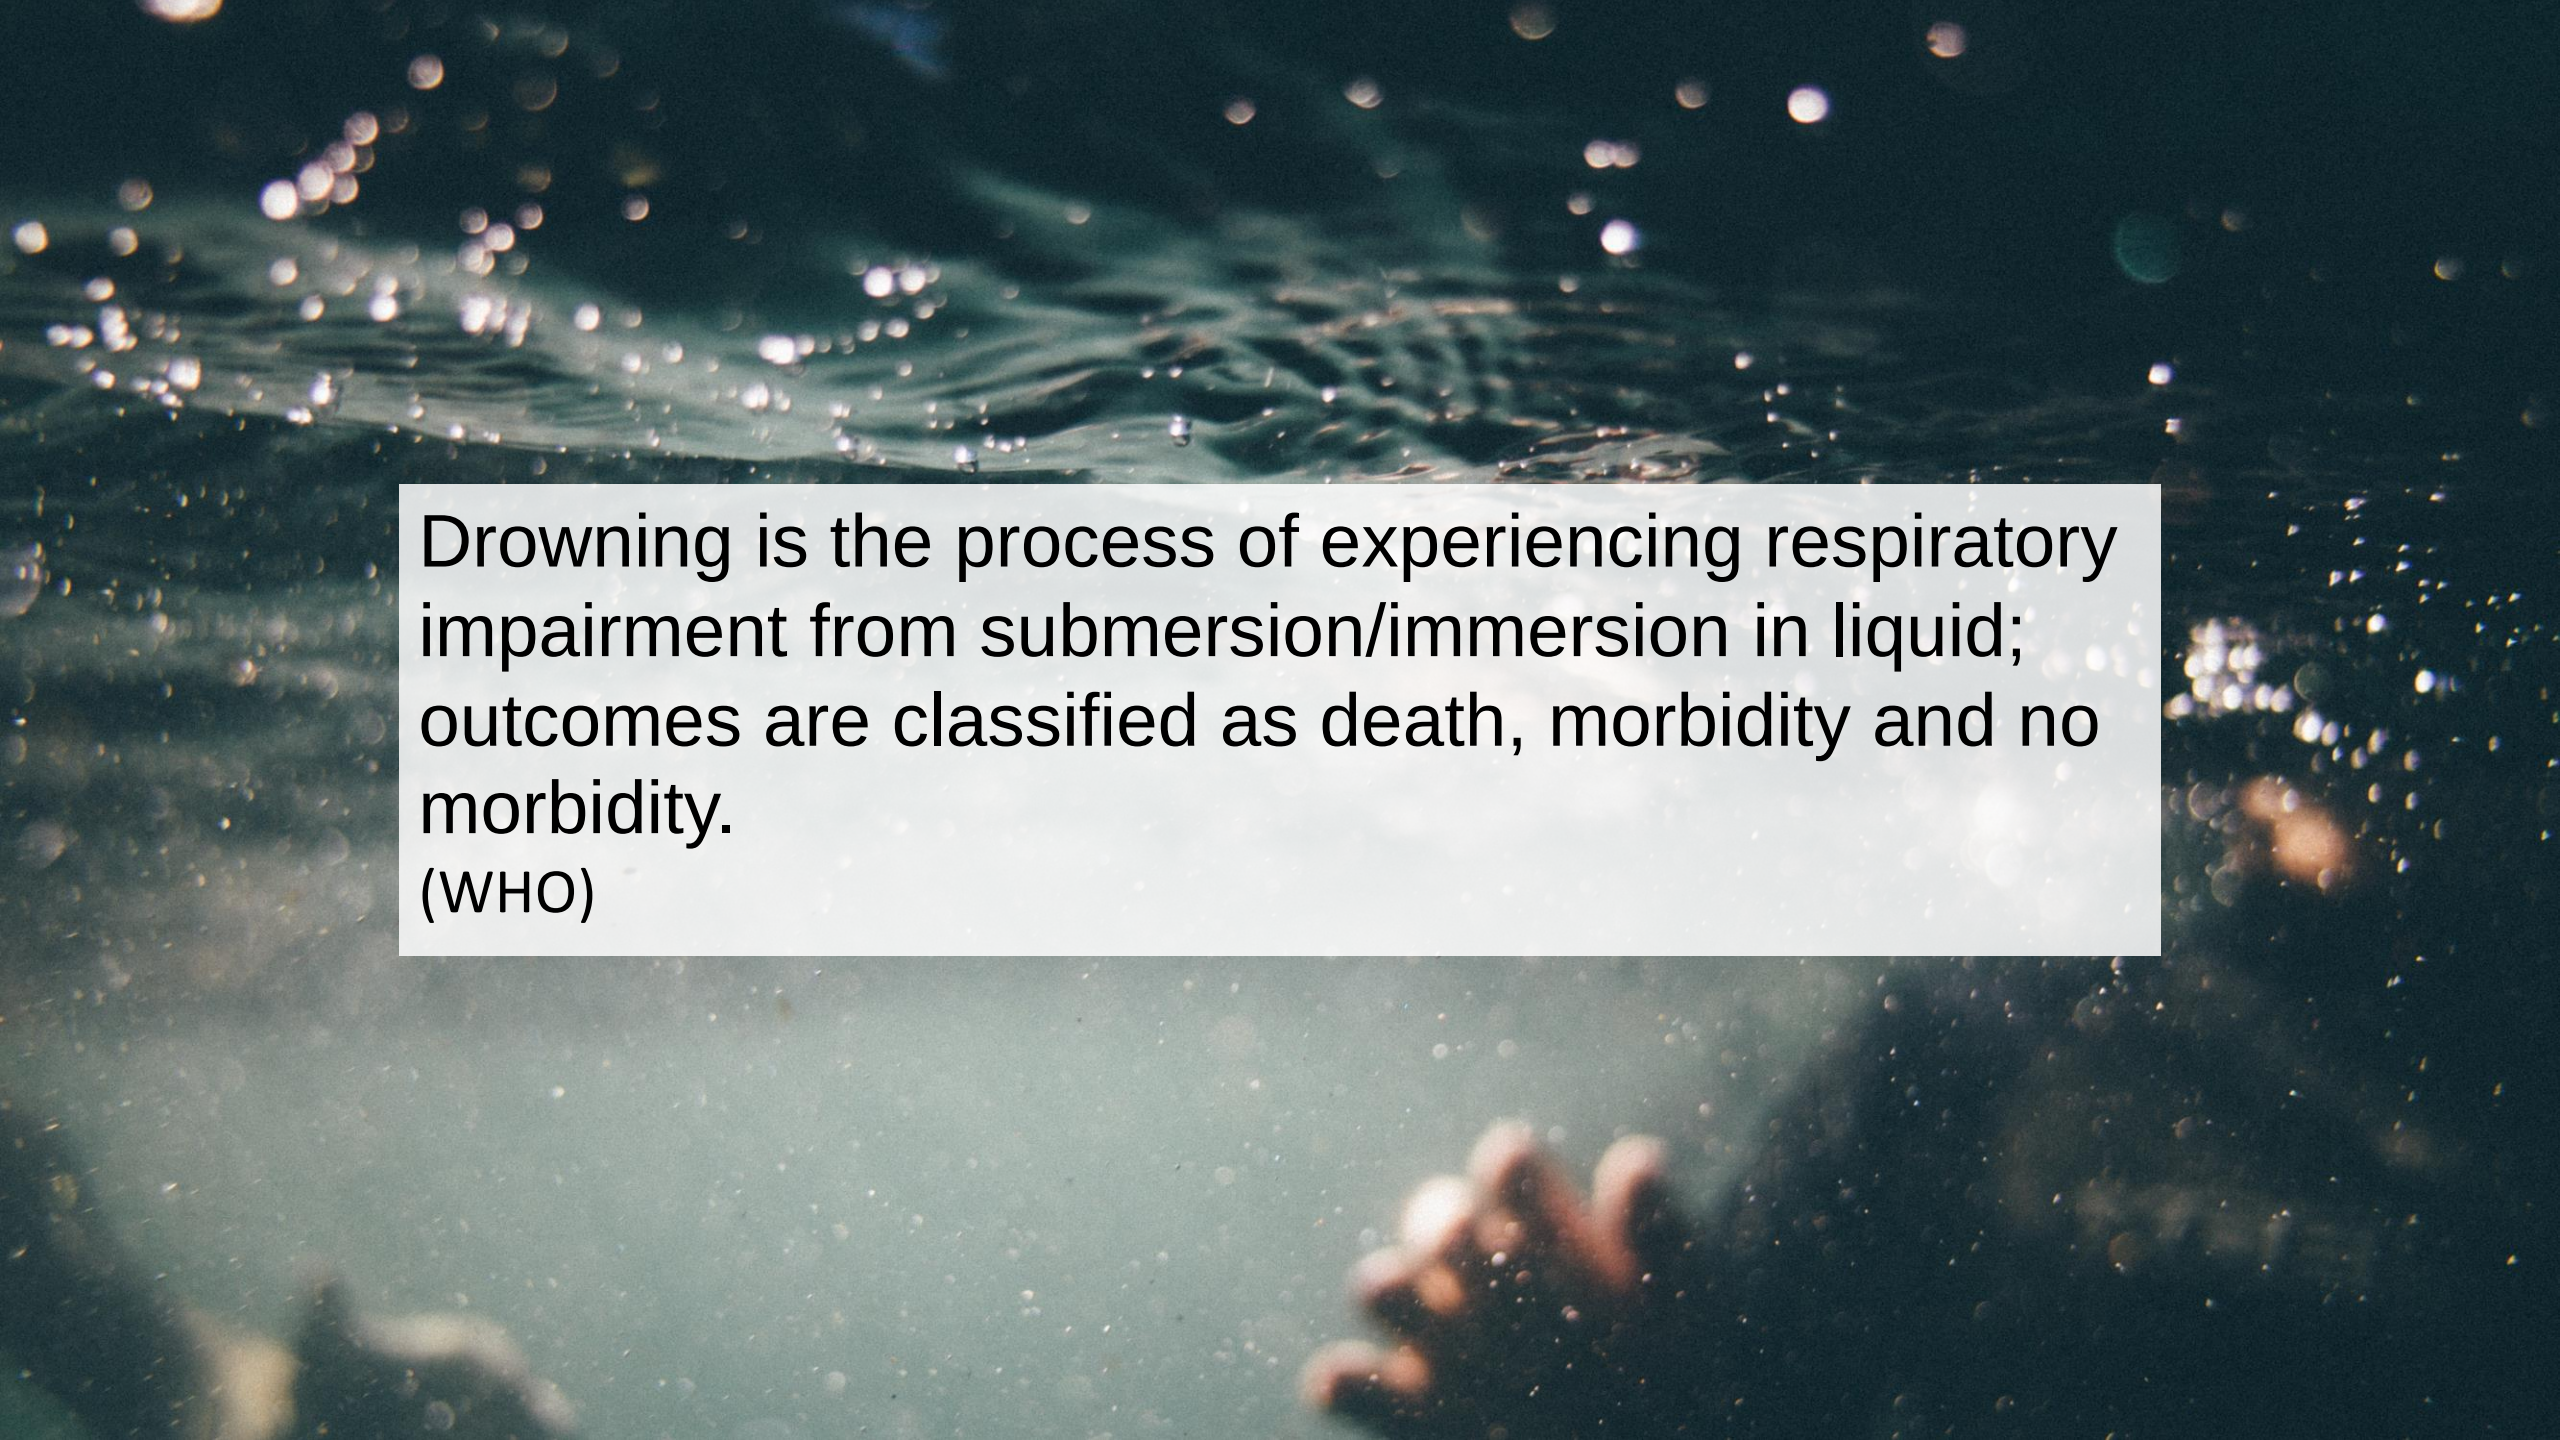

Firstresponder-Symposium 2022

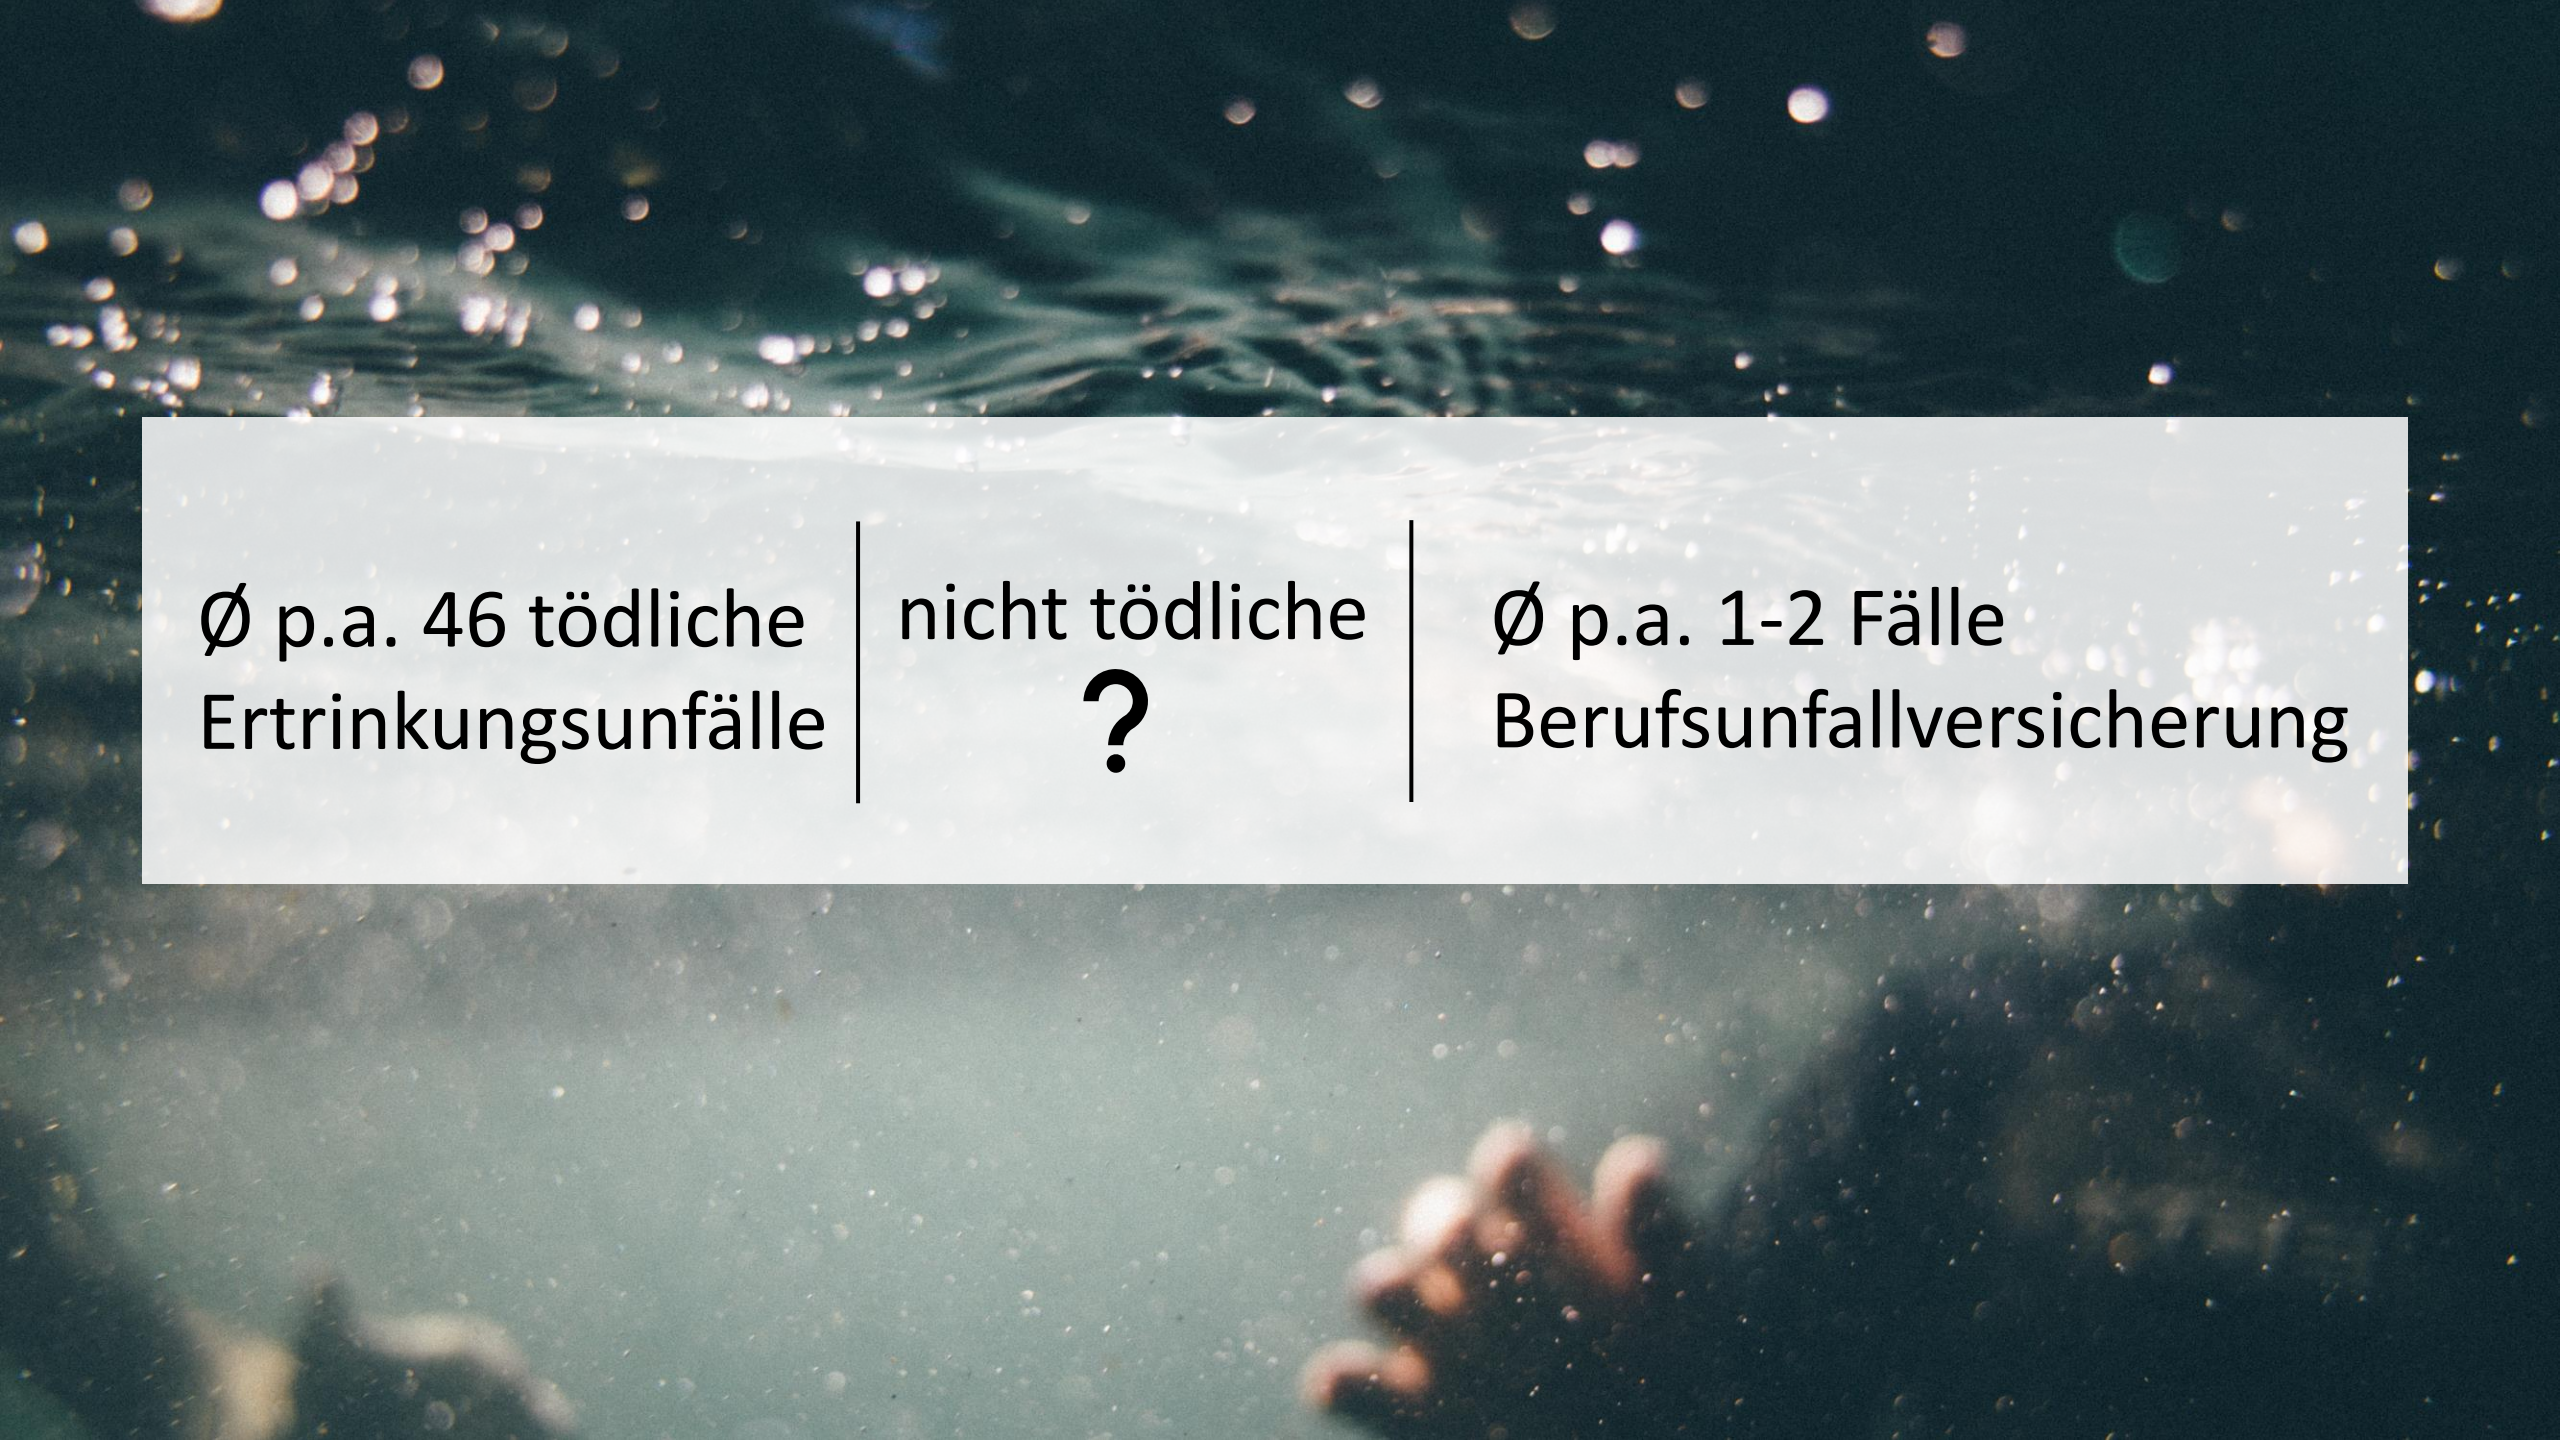

An underwater photograph showing a hand reaching upwards towards the surface. The water is dark and murky, with many small bubbles and light reflections. The hand is in the lower right foreground, and the surface is visible in the upper left background.

Drowning is the process of experiencing respiratory impairment from submersion/immersion in liquid; outcomes are classified as death, morbidity and no morbidity.
(WHO)

The background of the slide is an underwater photograph. In the lower right, a human hand is visible, reaching upwards towards the surface. The water is dark and murky, with many small bubbles and light reflections creating a bokeh effect. A semi-transparent white rectangular box is centered horizontally across the middle of the image, containing text.
